

On behalf of the Canadian Sheet Steel Building Institute CSSBI and the Corrugated Steel Pipe Institute, a cheque is presented to Mrs. Pat White in the amount of \$6,000 to go to the St. Thomas and Elgin Hospital in memory of Mr. Glen White of Steelway Building Systems. The money was raised by the CSSBI and CSPI during their 2007 Annual Meeting program held this year in Huntsville, ON. The White family has decided that all the money raised in Glen's name will be used to purchase a colonoscope for the hospital, an important diagnostic tool for the early detection of colon cancer.

Presenting the cheque was Dr. Steven Fox, General Manager of the CSSBI. Also present was Mr. Jamie Robertson, President of Agway Metals, and Past-President of the CSSBI.
