Dear Members of CSSBI and CSPI,

We would like to extend a special thanks to all the members of CSSBI and CSPI who made the St Thomas Elgin General Hospital Foundation your charity of choice at the annual meeting in June. Your generous donations during the meeting meant that the Foundation received over \$6,000.00 in additional funds!

We thought you might appreciate knowing how the money was spent.

At the time of Glen's passing, the Foundation agreed that our family would have the final say as to how the funds would be spent. We consulted with the Chief of Surgery and he indicated that the surgical team would like a second new colonoscope. The colonoscope will save lives through earlier detection of colorectal cancer and polyps, which can lead to cancer.

We are very proud and happy to announce that the new colonoscope has been ordered and will be completely paid for with the many generous donations from individuals, companies and organizations plus our family's donation! Your donation made it possible!

Glen believed that local hospitals are vital to the health of a community and he was very thankful for the caring and compassionate staff of St Thomas Elgin General Hospital. Words can not express how grateful we are for your donation to the hospital which Glen was so passionate about.

Thank you one and all!

Pat, Jason, Lisa, Bryan and Melanie
